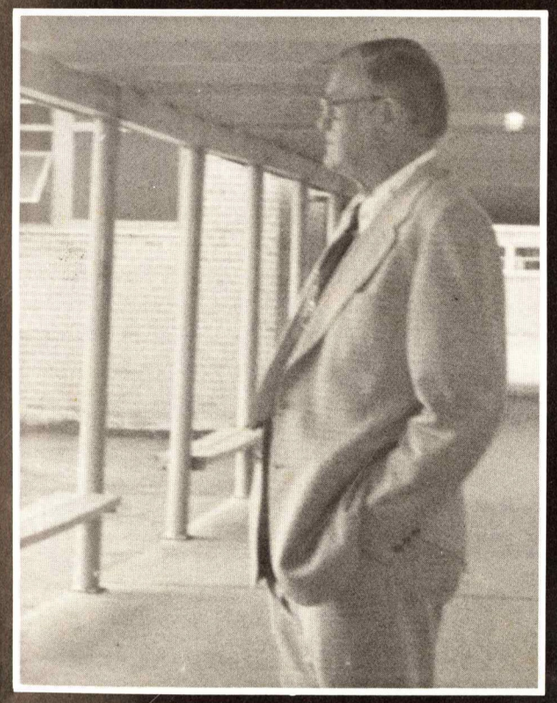
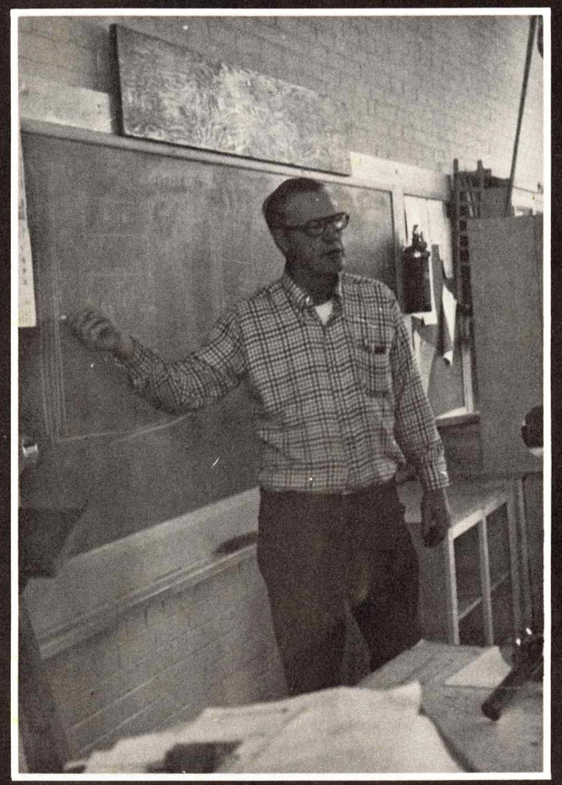
THE 1977 GROWLER IS DEDICATED TO MR. M.J. BULLOCK



In commemoration of 40 years of service to our school system, the MPHS faculty and student body would like to dedicate the 1977 Growler to Mr. M.J. Bullock.

Mr. Bullock has dedicated his life to the service of young people and education. He has worked unceasingly and untiringly contributing his talents to education and sports. He has worked in education as a teacher, principal, assistant superintendent, and superintendent. In sports he has served as a coach and was one of the originators of the Gulf Coast Officials Association; being tops in this area and much in demand for many years.

For you dedicated service to us, we would like to extend to you our love and deep appreciation. May your coming years be filled with joy, peace and happiness.



TEACHER OF THE YEAR MR. VERNON JONES

Every year the Student Council sponsors an award for the Teacher of the Year. This honor is presented to the teacher whose teaching abilities, ideas, and attitudes are most representative of the truly dedicated instructor.

Keeping these ideals in mind, the Student Council is proud to present Mr. Vernon Jones with the 1976-1977 award for Teacher of the Year.

Mr. Jones has been teaching Carpentry here at Moss Point High School for nine years, deciding to teach after 26 years of construction work. He attended Mississippi State University and University of Southern Mississippi, receiving his certification at Jackson County Junior College.

Interested in his trade's future, Mr. Jones began teaching in order to train young people to take over where his generation leaves off.

Thank you, Vernon Jones--for caring.

When the chips are down, we use them.

Because of our country's rapidly increasing demand for wood and paper products, we at International Paper Company have started using what used to be thrown away.

Lumber and plywood manufacturing leftovers formerly burned as waste—such as slabs—are today important raw material for making paper. Sawdust, shavings and other wood residues formerly discarded are being converted into useful products while bark, once a solid waste problem, is now an energy solution when used for fuel.

We've been doing this for more than 20 years, and it makes sense more than ever today.

Sometimes solutions grow on trees.

SPECIAL
THANKS
TO
BILL BAILEY

The long somber year of 1977 brought many changes to this beautiful, splendid campus of Moss Point High on the lovely crescent swamp lands. Trash gently tumbles on the ground as the sweet smell of cigarettes or something else flutters up ones sinuses attacking the raw membrane by deadening ones sense of thought. As one takes a lovely stroll to Carl Eley, he or she may accidentally be fortunate to run into a caferteria worker who forgot their Right Guard or possibly an oversized cockroach with new tennis shoes (that is if the 400 pound rat hasn't stepped on him.)

The physical conditions of Moss Point High may be described rather oddly in a teen-agers mind, but the Principal, Mr. Aaron Jones is truly the student's best friend. He is warm and sincere, but most of all he is honest with the students.

Moss Point High will no longer be the same without Mr. M.J. Bullock, and no longer will Mr. Bullock be there when we need him. The GROWLER STAFF salutes this great man, and sends its deep regards to him.
